Hiring Manager
GOAL Sierra Leone
Freetown, Sierra Leone

Dear Hiring Manager,

RE: Application for Site WASH Technician Position

I am writing to express my interest in the Site WASH Technician position at GOAL Sierra Leone. With a Higher National Diploma in Building and Civil Engineering and a Certificate in Building Technology from Eastern Technical University and over three years of experience supervising construction projects, I am confident in my ability to contribute effectively to the innovative fecal sludge dewatering project at the Kingtom Treatment Plant.

In my previous roles with Unique Solution and Moliba Construction Company, I managed a variety of WASH projects, from feasibility assessments to the implementation of water and sanitation infrastructure. My responsibilities included coordinating with contractors, local government agencies, and community members to ensure that construction projects met both national and international standards. I have developed cost-effective designs, overseen construction activities, and ensured compliance with strict health and safety protocols, which contributed to the successful completion of numerous projects.

Additionally, my technical skills and practical experience enable me to operate and monitor equipment effectively, gather and analyze data, and compile comprehensive reports on project progress. My strong organizational skills, attention to detail, and ability to work independently or within a team make me well-suited for this role.

I am enthusiastic about the opportunity to contribute to GOAL's mission of alleviating poverty and improving water, sanitation, and health outcomes in Sierra Leone. I am confident that my engineering background, project management experience, and commitment to making a difference align well with the goals of this project.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with GOAL's needs. Please feel free to contact me at your convenience.

Warm regards,

Princess Baindu Kallon
