

TESTIMONY OF BRO. AHMED KEIFALA

I am a product of the Liberation Mandate, and I want to return all the glory to the God who turns a wanderer into a wonder.

I joined the Living Faith Church (Winners Chapel Kenema) in October 2008 after Pastor Isaac Joel invited my late uncle to a Wednesday Communion Service. My uncle took me along, and from that very day, I told him, "I will now be attending Winners Chapel Kenema." Since then, my life has never remained the same.

Before joining this Commission, I was like an outsider among my father's children. But today, I am the first to be reckoned with in my family. I started out as an intelligent child, but along the way, I lost it and was even considered a "dummy." However, by the grace at work in this Commission, God has transformed me into an academic giant with a sharp and intelligent mind.

To the glory of God, I have obtained both my First degree and a Master's degree with excellent grades in this Commission. By August this year, I will be completing another Master's degree.

God also blessed me with a good job. Last year, I was nominated by my institution to attend a regional training course, which included participants from the Central Banks of Nigeria, Liberia, Ghana, The Gambia, Guinea, Sierra Leone, and representatives from international financial organizations across West Africa. The course was examinable, and by the grace of God, I came first—defeating participants from all the central banks and international organizations represented.

In addition, the God of this Commission has blessed me with properties in Kenema, Bo, and Freetown.

I want to return all the glory to the God who never fails!
